TESTIMONIAL

The Henley & Grange Historical Society had the pleasure of working with Fiona and Richard at DIY Digital on our recent website upgrade project, and I cannot speak highly enough of their expertise and professionalism. Our new website is not only visually stunning, but also functional and easy to use.

From the outset, they demonstrated exceptional communication skills, ensuring that we always knew what was going on with the project. Their patience throughout the entire process was also truly remarkable. They always were willing to take the time to answer our questions, explain technical concepts in layman's terms, and guide us through the process of populating the new website with our content. They were also incredibly flexible, always willing to make adjustments and changes based on our feedback to ensure that the end result was exactly what we wanted.

Most impressive was their technical skill to permit for the first time the functionality of both browsing and searching over 2,100 items of digital content in our 40+ journals and we couldn't be happier with the way this feature performs and appears on the webpage.

I would highly recommend Fiona and Richard at DIY Digital to anyone in need of two talented, communicative, patient professionals who are willing to work closely with their clients to realise their concepts.

Marie Hagen

President - Henley & Grange Historical Society
